The formula used was as followed:

OUT OF 280

17.7 -22= 3.3

280 divided by 17.7 =15.8 but I rounded it to 16

16-280 = 264

Mr. Johnson I used the formula you gave me this is for #1 then I plug the numbers in.

Thanks so much for reviewing this. If this not the formula can you please type each set here so I can do the EHS.
