

## Clayton County C.S.A., INC. Weatherization Assistance

### Having Problems With Utilities

It may be because your home is having major air infiltration problems that causes your heating and cooling system to work extra hard, or it may be because your home is not properly insulated. It could be many things that may cause problems, such as inadequate insulation, leaky doors and windows, leaky duct system, or it may be your home is old and just needs some attention.

### What Weatherization Can Do For You

The Weatherization Assistance Program offers services for those who qualify based on their income. **The Income Guidelines are based on the total income of the number of people living in the home. This will determine if someone qualifies for services.** Please call so we can get you an application. If you qualify we can weatherize your home and make the repairs needed to remedy the problem of high utilities. We serve Clayton, Fayette & Henry Counties.

Do you want to increase the energy efficiency of the home?

Do you want to reduce your utility bill cost?

If so, Weatherization Assistance may be for you!
